How every number in this book is labeled.

- **VERIFIED** means the figure comes from a named, dated source, and the source is printed next to it.
- **CALCULATED** means it is arithmetic on verified numbers or on your own numbers, and the math is shown.
- **ESTIMATE** means a reasoned range, and it is always called one.
- **STRUCTURAL** marks a standing rule of the trade (a law, a contract term, how the paperwork works), not a market figure.
- **STILL BEING MEASURED** means VyRal has not verified a figure yet, so no number is printed.

If a number is not labeled, it is a blank for you to fill from your own paper.

What this book is not. This is education, not legal, tax, accounting or financial advice. Where a fix says a professional decides, a professional decides. Nothing here says that any company, customer or person did anything wrong. The fixes show you how to check your own paper and ask in writing.

About how this book was made. This book was assembled with AI from VyRal's sourced research on this trade and checked against those sources. AI can make mistakes. Before you act on a figure, check it against the source printed beside it. Rules and rates change, and every figure carries its date for that reason.

Before you share any document with anyone, Vera included, black out account numbers, Social Security numbers and anything else you would not hand a stranger.

The short answer for your trade

In the trades, almost nobody who lasted won on price. They won on owning the relationship with the person in the chair — the client's number in their own book, not on somebody's platform. And the biggest failure in this whole category was a beloved brand that died because it was married to one way of reaching people and never changed it.

Your leak map

Every leak this book covers, biggest first. The size grade is VyRal's research grade for how much money a leak tends to move in this trade. It is a grade, not a dollar figure. Your own paper sets the dollars.

#	Leak	Size grade	Evidence	Fixes
1	Booth rental legality — and the "penalty" that is actually relief	Major	VERIFIED	1
2	QBI — 20%, now permanent, with a $400 floor	Major	VERIFIED	1
3	Self-employment tax set-aside	Major	VERIFIED	1
4	Booth rent as a fixed cost regardless of clients	Major	STILL BEING MEASURED	1
5	Booth rent vs. commission — the unrun comparison	Significant	STILL BEING MEASURED	1
6	No-shows and last-minute cancellations	Significant	STILL BEING MEASURED	1
7	Product and tools — the uncounted business cost	Moderate	STILL BEING MEASURED	1

Then there are 3 more leaks to check, each with its own fixes, in the chapter called More leaks to check.

What people in your trade say hurts

Before we built a single fix, we went and read what people in this trade say out loud: forums, trade press, regulators' complaint files and court records. These are the pains that kept coming up, the ones with the most sources first. If one of them is yours, you're not imagining it.

Called a renter, but the shop controls me

I pay rent like I'm my own business, but the shop sets my hours, my prices, or the products I must use, or runs my payments through its register and pays me the net. That can make me an employee under the law, and I'm paying both halves of the payroll tax with none of the protections.

No-shows leaving my rented chair empty

When a client doesn't show, I still paid for that hour of chair. I have a cancel policy on paper, but I rarely charge it because I'm afraid to lose the client.

Tips deduction lost or capped by sloppy books

As a renter I can take the new tips deduction, but only up to what my chair business actually nets, and only for tips I can show apart from service pay. Card tips mixed into my processor totals and cash tips I never wrote down get lost.

Card fees off every cut, higher on card-on-file

Almost everybody pays by card now, and every swipe costs me a few percent plus a fee. Charging a card on file for a no-show or a deposit costs even more. I price my cuts as if I keep the whole amount.

Found in 2 public sources; newest dated 2026-11-03. VERIFIED count from VyRal's public research log; the sources are listed at the back.

Charges on top of the rent I didn't count

The rent is the number I agreed to, but then come the add-ons: utilities, after-hours use, a cut of walk-ins the shop sends me, my own liability insurance,

software and supplies. I never add them up against the rent.

Get your paper together

Every fix in this book starts with paper, not memory. Memory rounds in the other side's favor. Paper doesn't.

Pull the last 90 days. Put it all in one folder, paper or phone, and label each piece with its date. Black out account numbers and Social Security numbers before you share anything with anyone.

The paper that proves each leak:

- Your contracts, invoices, statements, pay records and the messages around them.

Leak 1: Booth rental legality — and the "penalty" that is actually relief

Size grade: Major · Evidence: VERIFIED

What it is. Whether the booth-rental arrangement is legally recognized in your state.

Why it leaks. A booth-rent arrangement that's standard practice in most states can be a real misclassification exposure in a small number of others — neither the shop owner nor the renter may know their state is one of them.

The number to hold it against. Pennsylvania's cosmetology board may not allow booth rental; ask the board before you sign. This is about cosmetology salons; no such rule was found for Pennsylvania barbershops. Source: Pennsylvania Cosmetology Law, 63 P.S. §514.1; 49 Pa. Code §7.65.
VERIFIED · Primary — government or regulator

> **Ask yourself:** Has anyone confirmed booth rental is a recognized arrangement in your state specifically?

1. Booth rental that may not be a recognized arrangement in your state

Fix approved · leak evidence: Verified

Fix 1 — Do it yourself (free).

1. Ask your state board (barber or cosmetology — whichever licenses you) whether booth or chair rental is allowed for your license in your state. In Pennsylvania, for example, the cosmetology rules say booth rental within a salon is prohibited; the barber rules are separate.
2. Read your booth rental agreement. Write down: who sets your hours, who sets your prices, whose clients they are, who supplies product.
3. If you're a shop owner renting booths, ask a CPA whether you've been filing the right forms for your renters.
4. Whether the arrangement is legal, and whether anyone is really an employee, is for your state board, a CPA or an attorney. Not us.
5. Get the answer in writing before you sign or renew.

Fix 2 — The words to send, under your own name. Fill in the brackets, keep a copy, and send it from your own email or by mail. Nobody sends it for you.

Question to your state licensing board (email):

"Hello, I hold [LICENSE TYPE] license [LICENSE #] in [STATE]. I [rent a booth at / rent booths in my shop at] [Shop name, city]. Can you tell me whether booth or chair rental is permitted for [barbers / cosmetologists] in [STATE], and whether either the shop or the renter needs a separate license or registration for it? I'd like the answer in writing if possible. Thank you, [YOUR NAME], [PHONE]"

Fix 3 — Done for you. **LeakReceipts · Contract Check**

WE DO: read your booth agreement before you sign or renew and list in plain words the terms about rent, hours, prices, clients and product (not legal advice), and draft your question to the state board. YOU DO: ask the board, take legal or tax questions to an attorney or CPA, and decide whether to sign.

Keep it closed. Get the state board's answer in writing before you sign or renew a booth agreement.

What this fix can't decide for you. Legality of booth rental and worker classification are for the state board, CPA or attorney.
